PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 3.5+ years of experience in designing and developing scalable, user-friendly web applications. Expertise in React, JavaScript, TypeScript, HTML, CSS, and RESTful APIs. Strong problem-solving skills, collaborative team player, and committed to optimizing performance and user experience. Adept at working in Agile environments, mentoring junior developers, and delivering high-quality solutions.

SKILLS & TECHNOLOGIES

- **Frontend Technologies:** HTML, CSS, JavaScript, TypeScript, React, Redux, Next.js
- **UI/UX & Styling:** Material-UI, Tailwind CSS, Bootstrap
- **State Management & API Integration:** Redux, Context API, Axios, useQuery, REST APIs, GraphQL
- **Testing & Performance Optimization:** Lighthouse, Jest, React Testing Library, Webpack
- **Version Control & CI/CD:** Git, GitHub, Jenkins
- **Collaboration & Tools:** JIRA, Agile/Scrum, Postman, Figma
- **Databases:** MySQL, Microsoft SQL Server, PostgreSQL,

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Incedo

07/2021 – Present | Gurugram, Haryana

- Developed and maintained React-based web applications, enhancing UI performance and scalability.
- Designed and implemented reusable React components and hooks, reducing development time by 30% and ensuring consistent UI/UX across the application.
- Optimized frontend performance by implementing lazy loading, code splitting, and memoization techniques, resulting in a 40% reduction in page load times and improved user experience.
- Upgraded OpenText Content Server from version 10.5 to 23.4, collaborating with teams across multiple time zones.
- Led the development of a centralized data repository using React and .NET, improving data accessibility and efficiency.
- Integrated Elasticsearch for advanced search capabilities, optimizing data retrieval speed by 5x.
- Ensured seamless API integration between frontend applications and databases via RESTful APIs.
- Implemented unit testing and debugging strategies, improving application reliability and performance.
- Mentored and led a team of 4 junior developers, guiding them on best practices in frontend development.

EDUCATION

B. Tech in Biotechnology with minor in Computer Science – Delhi Technological University (2021)

CGPA: 7.98/10

TRAININGS AND COURSES

- The complete frontend Web Development Course
- React the complete guide
- AWS Practitioner Course – Amazon Web Services
- Tableau Certification – Data Visualization

PROJECTS & ACHIEVEMENTS

- Developed a React-based dashboard for visualizing business metrics, reducing manual data processing time by 40%.
- Successfully solved 150+ LeetCode problems, demonstrating expertise in data structures and algorithms.
- Recognized for Customer Innovation and Excellence at Incedo.
- Led and organized team-level and business-level outings, enhancing team collaboration.
